Music and Lyrics by Tyler Somers (BMI) and Jennifer Somers (BMI)*

V1: E B/D# C#m7  
Back in high school, I learned how to pretend  
A2 B E  
Pretend to be cool, everybody's friend  
E B/D# C#m7  
But I never really cared too much about the friends I called as such  
A Bsus  
I wish I was a different person then  
A Am2(add F#) E  
I wish I could do it all over again...

C1: A2 E A2 B  
I would have laughed and cried  
A2 E Bsus B  
Not so concerned with how I was looking  
A2 E B/D# C#m7  
I would have danced defying what was normal then  
A2 Am2(add F#) E E A B  
I wish I could do it all over again...

V2:  
Finished college, as fast as I began  
Four years passed and I'm pretty glad with how they went  
But as I think of the things undone with my friends - I didn't care enough  
I wish I was a different person then  
I wish I could do it all over again...

C2:  
I would have laughed and cried  
Not so concerned with how I was looking  
Holding their hands in mine, I would have beared burdens with them  
I wish I could do it all over again...

V3:  
I should love my woman, putting her needs first  
Not seeking service, but seeking just to serve  
But I hardly ever love at all, my heart is hard and cold and small  
I don't ever want to have to make amends  
I don't want to have to wish this over again

C3:  
I want to laugh and cry  
Not so concerned with how I am looking  
Holding her hand in mine, by her side I'll stand  
I only want to be a better man  
Don't want to have to wish this over again  
I only want to be a better man  
Don't want to have to wish this over again
